

VEDIKA AMOL DESHPANDE

AI&ML Engineer

☎ +91-8368864911 ✉ vedikadeshpande002@gmail.com [in linkedin.com/in/vedika](https://www.linkedin.com/in/vedika) 📍 New Delhi, India

Summary

AI/ML student with hands-on experience building end-to-end projects including recommendation systems and LLM-based applications. Skilled in Python, Scikit-Learn, and data analysis, with experience in deploying ML models and working with real-world datasets.

Skills

Programming: Python, C/C++, JavaScript

AI/ML: Machine Learning, Deep Learning, Scikit-learn, TensorFlow, Keras, OpenCV, NLP

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn, Data Preprocessing

Web & Deployment: React.js, Node.js, REST APIs, Flask/FastAPI

Tools: Git, Jupyter Notebook, Power BI

Projects

CLOUTWARE | *GenAI, LLM APIs, Full-Stack* | Try it out here

- Developed a full-stack AI advertising platform using Groq **LLM APIs** to generate marketing strategies from structured inputs with frontend deployment on Vercel and backend services hosted on Render.
- Designed a system processing **7+ mandatory and 5+ optional inputs** with **9 industry-specific templates** for scalable campaign generation.
- Built an end-to-end pipeline integrating prompt engineering and real-time output generation for ad generation, hooks, and targeting.

GrooveIn | *Python, NLP, Machine Learning, Streamlit* | Try it out here

- Built an AI-powered emotion-based music recommender using **TF-IDF and logistic regression** on user text input.
- Trained on **15,000+ labeled text samples** (Kaggle dataset + custom inputs), achieving **85–90% accuracy**.
- Optimized model for **sub-0.1s inference**, enabling real-time emotion detection and recommendations.
- Implemented NLP-based sentiment analysis to map emotions to curated Spotify playlists via an interactive Streamlit UI.

Experience

Convenor - Manipal Innovation Hackathon

2026

E-Cell, Manipal University Jaipur

- Led a team of **50+ members** to organize a hackathon with **200+ participants**.
- Managed end-to-end operations including problem statements, onboarding, and judging workflows.

Creative Director

2026 – Present

International Student Cell, Manipal University Jaipur

- Part of **5-member Executive Committee**, leading media, marketing, and design strategy.
- Collaborated with leadership and global delegates to execute high-impact promotional initiatives.

HR Director

2025 – Present

AI ML Community, Manipal University Jaipur

- Coordinated workshops, tech talks, and hackathons with industry experts for a **400+ member AI/ML community**.
- Designed structured AI/ML learning paths and curated **10+ technical resources** to accelerate member growth.

Creative Head

2024 – 2026

International Student Cell, Manipal University Jaipur

- Organized campus tours for delegates from **top 50+ global universities**, enhancing international outreach.
- Led branding and marketing for **10+ events**, aligning with university outreach initiatives.

Certificates and Courses

- **Microsoft Azure AI Fundamentals: Generative AI** - Microsoft (Credential)
- **Microsoft Azure AI Fundamentals: Natural Language Processing** - Microsoft (Credential)
- **Microsoft Azure AI Fundamentals: Computer Vision** - Microsoft (Credential)
- **Python Essentials 1** - Cisco Networking Academy (Credential)
- **Python Essentials 2** - Cisco Networking Academy (Credential)

Education

Manipal University Jaipur <i>BTech CSE (AI & ML)</i>	2023–Present
Navy Children School	2009–2023
